Director's Desk

"If you have one eye on yesterday and one eye on tomorrow, you are going to be cockeyed today".

This quote indicates to us the importance of being in the present moment. The present is a gift to mankind. Everyday the purse is filled magically with 24 hrs. The importance of being completely aware of the present can be easily understood, when we observe small children. The children are called gifted because they can completely be in the

present. Once they have the will to learn, they completely devote themselves to the task. It is miraculous to see a child learning to walk/ eat/ talk. They observe keenly, focus intently, try, try and try, practice for hours until they reach the perfection.

All of this and much more is possible, when we learn to give our complete devotion to the present moment. So, let us learn to live joyfully in the present with our children, for the child is the father of the man.

Dear Parents

"The greatest gifts you can give your children are roots of responsibility and wings of independence" - Denis Waitley

We all want our kids to reach their full intellectual and creative potential, to love learning & to enjoy reading. There's no question that doing well academically gives kids huge advantages for the rest of their lives. But even more important is the lifelong joy your child will derive from learning, if you can protect his natural curiosity and love of exploration. Children who believe they can "get smarter" by challenging themselves are more effective learners. But kids who have a doubt if they are smart or not, and worry that they might look dumb if

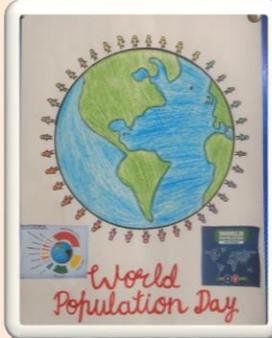

they make a mistake, shrink from learning anything new. Scientists believe that our brain is like a muscle that can be developed with exercise. So our goal as parents is to raise kids who believe in their ability to build mental muscle and to encourage our kids' natural curiosity and strengths, from dancing to reading to drawing. Ensure that our kids know they can choose how smart they are – it's intellectual lifting that builds brainpower. Let's encourage and show a bright pathway for our kids. So as parents of The Pupil School you hold a responsibility to pave the path for your kids to be smart and to face their future courageously. Join hands with us and create a bright future generation.

Education is not preparation for life; education is life itself.

- John Dewey

Limitless Sky

Lovely to look at the clear blue sky,
Eager to watch out for that blue high,
The Sun shining bright at its peak,
So many wishful things to seek,
Yes, its start of another day,
Let's wake up and make our own way,
Pray to almighty to show us the light,
For we all need to soar to many new heights.

- By Mohamed Fahim, (IX B)

Mother

She is filled with kindness,
And ignores our rudeness,
She is always by our side,
The only one to guide,
She gives us her love,
And is peaceful like a dove,
Oh! What would one do without a mother?

Our teacher, our friend and our lover
- Ashlyn (X B)

My Parents

My parents shower love,
They are like loving dove,
They are so good,
Never fail to feed me food,
They take a lot of care,
To always treat me fair,
The birds chirp tweet,
My parents are very sweet.

- Jessica Rose J (VI A)

Riddles

- Why are the nomads intelligent?
- They are No Mads
- Which vegetable does gold eat?
- Karat
- What is the frog's favorite year?
- Leap Year
- Which glass has the greatest anger?
- Tempered Glass

- Y Maha Shwetha (VIII B)

Clouds

I move all day,
I move all night,
With my friends by my side,
I am fluffy and I am white,
I get tried all the time,
I am the clouds, high above the ground,
Moving all day and all through the night

- By Anushikaa (IX B)

Tears

Water, water,
Flowing from the eyes,
No tap to close it,
Free to flow,
Weightless like a feather,
Filled with emotions,
Clear as a crystal,
Tickles your cheeks
There is a reason for every drop,
Everyone has it, they call it Tears.

- Y Y Braina Anew (X B)

Friends of the past

It was a hot sunny day,
A lovely day after May,
When I left my school,
I began wandering around like a fool.
Missing my friends to the core,
I want to see them a lot more,
I feel more lost,
And desire to get back to the past.
As we move on to college,
We shatter like a piece of collage,
Never met for years,
As they are no longer near,
Just those memories strike,
And it makes me dislike,
Always want to meet those,
But we no longer are so close...

Reflection

Pencil: I'm sorry

Eraser: Why?

Pencil: You always get hurt whenever I make a mistake. But, I can count on you; you would always be there to erase my mistakes. I feel bad that as you do so you become smaller and smaller and at the end become insignificantly small.

Eraser: Well, I was created to help you, whenever you do a mistake. I am happy to help you too, I never regret a bit.

Reflection: Our parents are just like the eraser and we are like the pencils. Parents are ever ready to help us correct our mistakes, sometimes by doing so they get hurt like the eraser. But they never give up.

Moral: Take care of those selfless souls and treat them with at most kindness and shower lots of love on them.

- By B. Sanjana, VI B

Feather

A light feather,
On a fine weather,
Sat on my lap,
Where it found a gap,
It flew,
As the air blew,
A lightest creation,
On the Earth,
Now stopped by a breath,
As light as it was,
Left me with a heavy heart

- VS Rakshitha (XI A)

Answers to quiz time

1. Bharata Muni
2. Nine
3. Perini Shivathandavam
4. BharathanatIAM
5. Flute

Achievements

“Every successful individual knows that his or her achievement depends on a community of persons working together”, said Paul Ryan.

We at The Pupil School always encourage our students to achieve the highest peak possible and as the usual they come out with flying colours. Aaliya Amrin K, Subramanian V, Soorya S.S, Meghna Sri V, won zonal level ranks in International English Olympiad. Our little champion Harshit S won distinction in the International Standard of Abacus Mental Arithmetic Proficiency Examination conducted by The GuangXi Zhusuan Association China. Prisha Tripathi and Pranshu Tripathi the wonder siblings had won

Black Belt in karate competition organised by BTF, Isshinryu Karate and Kubudo School, Japan. Tharnieswari M B had won the first place in both senior and junior level weight lifting competition organised by Inter district strength lifting Championship. Shri Aditiyaa V of Forth grade and Shirvatsaangar RS of First grade had secured the first and third place in karate competition organised by Japan Shotokan Karate-Do, India. Tulsi Santhosh Kumar of Eighth grade had won the fourth place in the yoga competition organised by Vedha Yoga Academy.

Meghna Sri, Kriya Ananad, Sbramanian v, Tharnieswari MB, Prisha Tripathi, Shrivatsaangar RS, Aaliya Amrin, Rithika TN

Events

Third standard kids were given an elaborate session on safety habits, healthy eating and also a hands-on training on CPR with mannequins, sculpting the way for young minds to become bright humans with a healthy living. These sessions were conducted by students and doctors of Saveetha medical college.

Food festival was conducted for class one students to kindle the gastronomical talents of the tiny tots. The kids were taught about cuisines around the world and they had brought delicious food items belonging to regions like China, Arabia, Mexico,

south and northern parts of India. It was truly a feast both visually as well as to our taste buds.

Doctors' Day and World Population Day were celebrated in the school by our students on the 1st and 11th of July by creating artistic posters and putting them up on notice boards.

The installation of the Interact Club 2017-2018 took place this month. A team of six students were inducted for this academic year. This club is intended to kindle our students' social awareness.

Field Trip

Field trips help students interact with what they are learning. The experience goes beyond reading about a concept; students would be able to see it, manipulate it or participate in it physically. Students will be able to see elements with their eyes rather than reading about it and believing what they are told because it's in print. We at The Pupil School strongly believe that our students need to understand every

Celebration

Our school ensures that every staff who works here is given good importance as much as our dear parents and students. So we celebrate every important occasion of our employees with pomp and splendor.

The staff who had celebrated their birthdays in the month of July were Ms Ambika Raju, Ms. Anupama S, Ms. Avishak Das Majumder, Ms. Devi S, Mr. Karthikeyan V, Ms. Kavitha

concept which is taught in class.

Body system was this month's topic dealt with the third grade students. In order to make our students get a hands-on experience of our body system they were taken on a field trip to Saveetha Medical & Dental College and taught about different concepts which were previously taught in class.

Gracelin S, Ms. Reeja John, Ms. Swapna P, Mr. Vadivelan, Mr. Venkatesan V, Ms. Vijaya Preetha A, Mr. Vincent Raju B, Ms. Suganya Arun, Mr. Palani M, Ms. Mythili Sathayajith. We hope you had a fabulous time with your dear and near ones.
