EDUCATE YOUR CHILD INDIA'S TOP SCHOOLS FOR THE FUTURE

It is that time of the year when parents are busy picking the school they would like to have their child admitted. The next academic year is still 4-5 months away, but schools have already begun the admission process - not just for the first standard but also for nursery and playgroups. The most important decision you will make as a parent is deciding which school for them to enroll in. Make the right decision and you could put them on a path toward lifelong learning, a prestigious college education and a successful career. To teach their children the necessary skills for an ever-changing world, many parents are

their strengths. Although these schools are pricey, they offer a high quality infrastructure as well as learning experience. There are many things to consider when making a decision on the best school for your child, so it helps to draw up a list of criteria to guide you. Before deciding on your child's school, you must take factors such as quality of curriculum, training of teachers, parent-teacher programs, school location, school size, class size, the types of programs offered and facilities into consideration. One of the greatest gifts a parent can give a child is the opportunity to get a quality education.

But, as with any major decision, you need to do your homework first. Selecting a school for your child can be a complicated process. Most parents want to send their child to the best school available, but it's important to choose a school that's the right fit for your child and for you as a parent. Make a shortlist of the schools that meet your criteria, then collect information about them. Read brochures and check out schools' websites for practical information such as types of programs, languages taught and assessment techniques. To assist you with your search, here is the list of top schools in India.

PONGAL CELEBRATION

Pongal, the harvest festival was celebrated in a traditional manner in our school today. Colourful rangoli, decorated pots and the sugarcane added to the grandeur of the festivity. Pongal was cooked in earthen pots and offered to the Sun God. The folk dance by the middle school students was replete with art forms like Karagam, Oyilattam and Silambam. The tiny tots of the Montessori and Kindergarten enjoyed the bullock cart ride inside the school premises. 'Uriadi', folk songs and other traditional games were the highlights of the programme.

MY BEST TEACHER

Who am I ?
I never thought of this
But wanted to know
After I met you .

You are my friend
Who gave me that comfort
I adore your teaching
I can't believe this !

Your thoughts are
Like you
Very young
Enthusiastically energetic.

First I want to know
Who you are
Yes, You are my teacher !
But that's it !

You have adored
Goodness in me
And made my
Flaws to positivity.

You will be
My Best Teacher
FOREVER AND
I LOVE YOU !

No, not at all
You are my mother
Who made me realise
I am good enough

I wish
You teach me
In every class
I'd love to see you.

Energy Audit - 6 Jan, 2016

As part of the ongoing energy conservation and awareness programme by the Schneider Electric and Sharp (NGO), the students of class VII A&B conducted an audit on consumption of energy inside the campus on 6th January, 2016. They voiced their concern by their 'Power detectives' stickers that were stuck on the doors and switch boards. They also expressed their anguish on certain aspects of power usage that hampered effective use of energy. The team decided to take stringent measures to sustain power consumption and judicious use of resources.

Admissions Open
